

LEE HARRIS MEETS RIVER STYX

ANGEL-HEADED HIP HOP: TALES FROM THE GROVE

A mesmerising journey of spoken word and rap over psychedelic soundscapes. Bringing together Lee Harris the legendary counter culturist and poet with the young talent River Styx. From jazzed out electronica, Spiritualised Big beat and intense eclectic Hip Hop. A tip of the hat to the legacy of the Beat Generation intertwined with a sound that has been dubbed "Psy-Skool"

With a very special guest line up of:

Vipers lair on the Angel Headed Hip Hop set @ Psychadelic Circus
The Angel Headed Hip Hop set was an interesting mix of free flow spoken word lyrics over the top of scratch and Hip Hop beats, a sort of early Pink Floyd guitar drone with freaky bits, and a wandering base line. It's an intriguing aural trip I can best describe as Jazz meets trance and Hip Hop on acid.
